

AIRO GEAR

Value line air springs

Bellows Only

style air springs consists of the Rubber element only, open at both ends and do not have any additional attachment features.

Complete Assembly

style air springs consist of the rubber bellows which is, a separate hermetically sealed unit including the bead plate, the rubber bellows, the end closure (for attachment to the piston), an internal bumper (if any) and the piston.

Service Assembly

style air springs include all the components of the complete assembly without the lower piston. Before you order a service assembly we advise close inspection of the piston to be reused. A slight imperfection or build-up of corrosion or dirt on the piston may cause a new bellows to wear out prematurely.

About us

The global leader in air springs is launching a new value brand, AiroGear™. AiroGear air springs are developed and built according to Firestone standards of manufacturing to offer a low-cost, reliable quality product that meets the durability and performance requirements of the commercial vehicle owner needing a practical solution.

The AiroGear product range covers the most popular aftermarket applications for both European and North American vehicles and will fit the majority of trucks, trailers and buses in the market.

Bellow Only

WARNING

DO NOT INFLATE AN AIRSPRING WHEN IT IS UNRESTRICTED. ASSEMBLY MUST BE RESTRICTED BY SUSPENSION OR OTHER ADEQUATE STRUCTURE. DO NOT INFLATE BEYOND PRESSURES RECOMMENDED IN SUSPENSION DESIGN LITERATURE (CONTACT AIOGEAR FOR INFORMATION). IMPROPER USE OR OVERINFLATION MAY CAUSE ASSEMBLY TO BURST CAUSING PROPERTY DAMAGE OR SEVERE PERSONAL INJURY.
